

Technology beyond lubrication

CEMENT & MINING INDUSTRY

Polytron For Cement Industry

Application

- Heavy Equipment
- Conveyor
- Mills (Raw, Coal, Cement)
- Gear box (Bucket Elevator)
- Bearing
- Gear box (Kiln)
- ID & OD Fan
- Truck & Trailer
- DG Sets

Polytron Metal Treatment Concentrate (For Engine/ Gear Box)

Benefits

- Reduction in FRICTION by 95%
- Extend Oil Change Interval By 2-3 times
- Considerable Reduction in Ageing problems such as Noise, Vibration & Temperature.
- Reduction In Pitting Issues of gears
- Extend Life Of Equipment & Parts
- Reduce Downtime & Maintenance Cost by 60%
- Protect In the Event Of Accidental Oil Leak

POLYTRON FUEL CONDITIONER (FOR DIESEL)

Benefits

- Cleans the entire fuel system such as injectors, valves, port, combustion chamber etc & stop further harmful build-up
- Maximizes mileage by 10-15%
- Exhaust Pollutant are reduces by up to 75%
- Maximize power and compression
- Provide quicker start up in cold weather
- Neutralize poor quality fuel and removes carbon deposits

POLYTRON EP-2 LITHIUM COMPLEX GREASE (OPEN CHAIN, ROLLER, BEARINGS)

Benefits

- Extend Maintenance intervals 300-600%
- Extend Service life of equipment 600-900%
- Lower ageing issues such as temperature, vibration & noise
- Best for open exposed area (sand & moisture)

POLYTRON PENETRATING LUBE SPRAY (WHERE RUST & CORROSION IS FACTOR)

Benefits

- Breakdown rust, corrosion within a fraction of time.
- Protect equipment in harsh environment of dust, moisture & temperature
- Lowers operating temperature and noise
- Keep equipment parts clean from any build up
- Provides long lasting and smooth operation of any metal mechanism by reducing friction & wear

Polytron Metal Treatment Concentrate

It is a unique Petroleum based formula which is compatible with all type of Engine, Gear, Hydraulic & other industrial oil. It Reduces FRICTION by 95 % and thus problems caused due to Friction.

Polytron Fuel Conditioner

Fuel Conditioner for Petrol & Diesel fuel is scientifically designed to clean & lubricate the working part of fuel system, improve combustion, remove carbon deposits and prevent future harmful build-up.

Polytron EP-2 Lithium Complex Grease

It is formulated with high quality base oil and Lithium complex soap. It combines high temperature stability, extreme pressure and outstanding anti-wear properties with excellent water resistance.

Polytron Penetrating Spray

It is scientifically blended to be the most effective wherever rust, corrosion or drag is the factor. It not only removes rust & corrosion but it also prevent from future build-up and hence increase the life of parts.
