

POLYTRON METAL TREATMENT CONCENTRATE

- Reduces Metal wear & tear upto 95%
- Reduces Noise/Vibration/Temp.
- Improve Performance/Efficiency
- Eliminate deposits & Keeps machine clean
- Extend oil change interval & filter life

POLYTRON FUEL CONDITIONER

- Lubricates entire fuel system line
- Helps in proper fuel combustion
- Increase fuel efficiency
- Dissolves deposits
- Reduces harmful pollutant

POLYTRON PENETRATING LUBRICANTS

- Works as a lubricator
- Remove & Prevent from rust & Corrosion
- Protect under wider temperature range
- Increase life of tool & parts
- Keeps parts clean from deposits build-up

POLYTRON EP-2 LITHIUM COMPLEX GREASE

- Extends maintenance interval up 300%
- Best for exposed environment
- Reduces operating cost & downtime
- Increase life of equipment

LOGISTICS & TRANSPORTATION

REDUCE POLLUTION BY 70-80%

DETROIT DIESEL

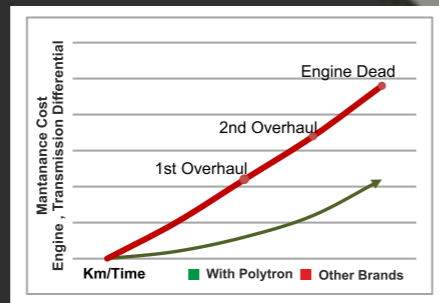

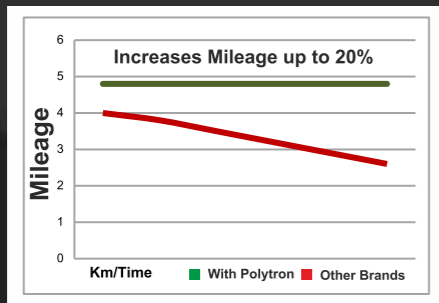

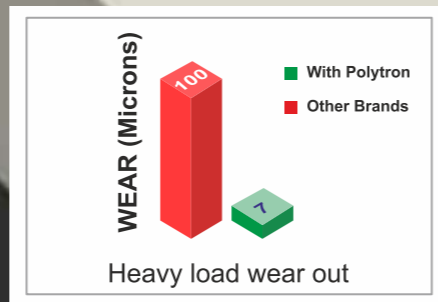

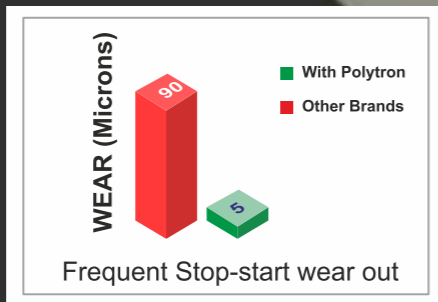

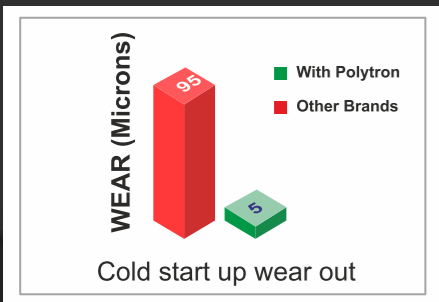

Technology beyond lubrication

TECHNOLOGY DEDICATED TO LOGISTICS & TRANSPORTATION

Polytron is most advanced lubrication technology in the world designed by American scientists (California USA).

Polytron is a penetrating lubricant that treats the metal friction surface reducing wear and tear of any machine significantly.

Common Problem due to Aging In Logistics & Transportation

- Reduced Pick-up & Performance with time.
- More Halt due to overheating & Breakdown.
- Excessive Fuel Consumption with aging.
- Need of Oil change frequently
- Excessive Top-up volume of oil with aging.
- Driver's tiredness due to noise & vibration.
- Excessive black smoke due to improper combustion.
- Formation of Sludge & Carbon deposits on parts.

What you can expect with Polytron Products usage.

- Boost the performance with increase in power.
- Reduces breakdown nearly zero and increase equipment life.
- Increases fuel efficiency by up to 20%
- May extends oil change interval by 2-4 times.
- Reduction in oil top-up volume up to 70%.
- Immediately noticeable reduction in noise & vibration
- Helps to pass smoke test if failed once.
- Reduces sludge by virtue of reduced metal wear by 95% and also cleans engine by removing carbon deposits.

POLYTRON reduces pollution by 70 - 80%

Stops mal combustion of fuel and reduces emission of harmful gases.

We Invite you to take the Polytron challenge

& put these miraculous products to the test
